Easy Ways to Learn English

Here we suggest some easy ways to learn English at home, at school or on the move. Why not try them today?

- A. Scrabble® is a classic board game in which players create words in a crossword fashion. It's a fantastic way to make your English vocabulary stronger. Playing Scrabble challenges you to really think in English as you try to create different words using your set of letters. Invite your classmates to play with you or play Scrabble online.
- B. Songs almost always contain a lot of useful vocabulary, phrases and expressions. The language used in songs is informal and up-to-date. Music also has an incredible ability to stick in our heads, so this can help you to remember your new English words.

- C.** To learn new English words, it's important to keep using them. When you write down the new words, try to use them in three different sentences. Then, say them out loud. The repetition will help you to remember the word, and when you use the word in different contexts, you help yourself to expand your vocabulary.
- D.** Join online English forums. The key here is to join forums for subjects that you are interested in – that way, your motivation for learning English will improve because you'll want to take part in them. So, whether it's photography, movies, travelling or cooking, discuss your passion with other people in English.
- E.** One of the most effective and easy ways to learn English is to surround yourself with the language. Find an English-speaking radio station to listen to, watch English-speaking movies or TV shows. When you go to an English-speaking country, listen to conversations in restaurants, at airports or in shops and try to pick up everyday language. The good thing is that with modern technology and apps, this can be done practically anywhere.
