**A:** Excuse me...

**B:** Oh, yes, how can I help you?

**A:** Well, I bought this phone here last week, and I'm having some problems with it. I'll show you...

**B:** Oh, right, umm... Before you do that, have you got your receipt?

**A:** Yes, I have, it's here, but...

**B:** OK, that's fine. Thank you. So, what's the problem?

**A:** Well, it's probably nothing. I just need some help, really. I can't turn the sound off. Can you show me?

**B:** Let's have a look... um you press this... and this... then it should...oh, I see what you mean. It doesn't work, does it? You haven't dropped it, have you?

**A:** No, why? Is it broken?

**B:** No, actually I think it's faulty. We'll send it back to the producer.

**A:** So what about me? I need a phone.

**B:** Yes, of course. Well, we can either exchange it, or we can give you your money back.

**A:** I see. Well, I don't think I want the same model again, it might have the same problem. But I do need a phone, but which model?

**B:** It's up to you, of course. We do have some great new phones just in today. Perhaps you'd like to have a look...

**A:** Hmm, yes, OK then, but I don't want to spend any more money...

Hi JJ,

I'm writing to you because you know everything about electronics. My family and I want to buy a drone for my brother's 10<sup>th</sup> birthday. All his friends have got drones, and he'd like one, too.

I've checked some models online and yesterday I went to a local electronics shop, but the guy there knew little about drones. So, could you tell me which model is the best one for beginners? Is there any brand you would recommend? I will be really grateful if you help me.

Thanks in advance for your help.
