### Zadanie 7

Przykładowa odpowiedź:

My favourite cartoon is *Up* by Pixar. I've seen it lots of times and every time I find something new in it.

Why do I find this cartoon so interesting? Well, it talks about growing old, which we don't often see in animated films. The main characters are older people, and not some young superheroes like Batman or Spiderman. We can see their entire lives, from their childhood years up until they become old and die. This is what makes this film so original. It also makes you realise that life goes by quickly

and we should enjoy it. It's definitely worth watching!
