Two British games

Some sports and games are popular all around the world, like football, tennis and swimming. Some sports aren't popular in every country. Baseball is an American game. It's popular in the USA, but not in Europe.

Cricket is a British game. It's very popular in England, India, Pakistan and Australia, but people in the USA don't play cricket! It's a team sport. Players use a bat and a ball. One team has got the ball, the other team has got the bat. People play cricket and baseball in summer.

Squash is a British game, too. It isn't a team game. It's like tennis. In squash, players use a racket and ball, but they haven't got a net. Tennis is an outdoor sport. You play squash indoors, in a special room with walls. You play it all year round, in winter and summer.
